

Acrylitex[®]

SMOOTH WALL[™]

Level 5 PVA

ACRYLITEX SMOOTH WALL[™] is a hi-build PVA applied in a production spray application to create a smooth wall finish. Smooth Wall eliminates the need to skim coat, sand, and prime the entire surface. Applying Acrylitex Smooth Wall in an easy one-step spray application takes a level 4 finish to a level 5 with little or no sanding. Acrylitex Smooth Wall is a hi-build PVA primer that provides a sealed uniform surface for the finish coat.

Extreme hi-build formula

Production spray application

Replaces traditional skim coat to achieve a level 5 finish

Minimizes labor intensive sanding

Non-abrasive equipment friendly product

VOC compliant

Coverage: Apply at 110 square feet per gallon yielding 15 wet mils. Product can be applied up to 35 mils before sagging.

Dry Time: Smooth Wall is dry to the touch in 1 hour and ready for recoat in 4-6 hours @ 70°F and 50% relative humidity.

Application: Apply product at can consistency. No thinning is necessary. Use an airless sprayer with a minimum output of 1 gallon per minute for best performance.

Cleanup: Wipe up drips and spills immediately with a wet cloth. Clean tools with soap and water.
